The Annual Percentage Yield (APY) is a percentage rate reflecting the total amount of interest paid on an Account, based on the interest rate and the frequency of compounding for a 365-day period. The interest rate and annual percentage yield may change on a monthly basis, as determined by City CU’s Board of Directors.

RATE INFORMATION ON ACCOUNTS:

- ASSOCIATION CHECKING
- BUSINESS CHECKING

Interest rates are not applicable on these Account types.

BALANCE COMPUTATION METHOD - City CU uses the daily balance method to calculate the interest in your Account. This method applies a daily periodic rate to the balance in the Account each day. Interest will begin to accrue on the business day you deposit cash and non-cash items to your Account.

COMPOUNDING AND CREDITING - Interest is paid from current income and available earnings, after required transfers to reserves at the end of an interest period. The interest rate and APY are prospective rates and yields City CU anticipates paying for the interest period. Interest is compounded and credited as stated in the Rate Schedule below and calculated on the full amount in the Account each day, subject to minimum balance requirements.

If you close your Account before interest is paid, you will not receive accrued interest.

MINIMUM BALANCE REQUIREMENT - Minimum balance requirements are disclosed in the Rate Schedule below.
